	Examiner Jason S. Morrow	Art Unit 3612	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Japanese Patent Number 410129523 (hereafter Hashimoto).

Re claim 1, Hashimoto discloses a front side-part structure of a vehicle, comprising a front side member (1), a fender apron inner panel (2, 4) disposed at a lateral side of the front side member, a fender apron upper panel (3) disposed at a lateral side of the fender apron inner panel, and a reinforcing member (5) coupled with the fender apron upper panel, fender apron inner panel, and front side member.

Re claim 2, the fender apron inner panel is coupled at one end to the front side member, and the other end thereof is coupled to the fender apron upper panel by being upwardly bent (see figure 3).

Allowable Subject Matter

3. Claims 6-11 are allowed.

4. Claims 3-5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments filed 8/5/05 have been fully considered but they are not persuasive.

Applicant's argument with respect to claims 1 and 2 above is essentially that part 5 of Hashimoto is a "strut housing" and not a "reinforcing member" as required by the claims. However, Applicant has not pointed out what features or characteristics are necessarily implied by the term "reinforcing member" and are not present in the "strut housing" shown by Hashimoto. The part 5 of Hashimoto, simply by being connected to the structure shown by Hashimoto, necessarily provides some measure of reinforcement. The fact that its purpose is not solely for reinforcement does not preclude part 5 from meeting the claimed limitation of a "reinforcing member".

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3612

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
